### Some Fun Facts About Swimming Pools

Swimming is a great cardiovascular workout, strengthening both the heart and the lungs. Burning more calories than walking or biking, swimming uses every major muscle group in the body, making it an ideal activity to keep you in shape.

The oldest known swimming pool is in Pakistan. The pool is estimated to date all the way back to the 3rd millennium BC.

An Olympic-sized pool can hold up to 850,000 gallons of water. That's enough water to fill more than 9,400 bathtubs!

The U.S. has an estimated 10.4 million residential swimming pools and approximately 309,000 public swimming pools.

The largest swimming pool in the world is in Chile. The San Alfonso del Mar resort in Algarroba is home to the world's largest swimming pool which has an area of 19.77 acres and can hold 66 million gallons of water.
